TECHNICAL SKILLS

ML & NLP
Python, scikit-learn, PyTorch, Hugging Face Transformers, XGBoost, Pandas, NumPy

Retrieval & data
TF-IDF, BM25, embeddings, RAG, ChromaDB, SQL, Redis, SPARQL, Apache Spark, Hadoop

Engineering
FastAPI, Git, Docker, Java, Kotlin, Swift

EDUCATION

M2 Data, Knowledge and Hybrid Artificial Intelligence (DKAI)
Université Paris-Saclay
Sep 2026 - Present

M1 Data Science
Université Paris-Saclay
Sep 2025 - Jul 2026

BSc Information Technology Engineering
Damascus University
Oct 2015 - Nov 2020
Software Engineering | 15.4/20

LANGUAGES

Arabic: native

English & French: professional working proficiency

PROFILE

M2 DKAI student at Université Paris-Saclay with a software engineering background and projects in machine learning, NLP and retrieval.

SELECTED PROJECTS

Examining the Effect of Face Accessories in VLM Face Evaluation
M2 group research | Team of 5 | Sep - Oct 2026
- Reviewed generated portraits and analysed objective and subjective evaluation results across **720 synthetic identities (2,880 images)**; contributed to the subjective track.

PolicyGap - policy evidence retrieval
Summer school competition | Team of 4 | Jun - Jul 2026
- Built the complete codebase for a four-person team, comparing policy evidence with NIST, ISO and CIS requirements.
- Implemented embeddings, vector search and LLM-based gap analysis with Python, FastAPI, ChromaDB and React.

Scientific article information retrieval
M1 course challenge | Team of 3 | Apr 2026
- Contributed throughout the lexical/dense retrieval and eight-signal fusion project over **20,000 papers**; our team ranked **first at the submission deadline**.

Human, AI-generated and mixed text
NLP course | Team of 3 | Jan - Feb 2026
- Compared classical models and transformers for text classification and human-share regression.

EXPERIENCE

Software Engineer | Blue Smart Apps
Remote, Damascus | Apr 2020 - Mar 2023
- Built ListedNearMe for Android using Kotlin, Jetpack Compose and Firebase, covering requirements, design and implementation.
- Contributed to iOS (Swift) and web development; integrated Firebase Functions, Google Maps, Algolia and Google Analytics.

Freelance Software Engineer
Mar 2020 - Sep 2022
- Developed Java desktop applications for clients.

CERTIFICATIONS

IBM / Coursera | Jan 2024
Python for Data Science, AI & Development
Getting Started with Git and GitHub
